

MIAMI J® CERVICAL COLLAR

Known as the superior c-spine immobilizer on the market through multiple independent studies, the Miami J Collar's patented design meets the specialized needs of all those afflicted with cervical injuries. The Miami J offers features that enhance compliance and help speed recovery while ensuring immobilization, inhibition of skin breakdown and patient comfort.

- Sorbatex™ padding is antibacterial and clinically proven to inhibit microbial growth, which enhances comfort and helps assure patient compliance
- Bioengineered to minimize pressure points in key known areas; chin, occiput, trapezius and clavicle
- Sizing based on 6 phenotypes to assure proper fit and optimum immobilization
- Comfort adjustment buttons for occiput and mandible, removable sternal pad for supine and swallowing

Collar Sets & Accessories (see *Phenotype-driven sizing system below*)

COLLAR	COLLAR SET	REPLACEMENT PADS	SIZE
MJ-200S	MJR-200S	MJP-100	Super Short/Kyphotic*
MJ-200L	MJR-200L	MJP-200L	Stout
MJ-250	MJR-250	MJP-250	XS
MJ-500	MJR-500	MJP-100	Tall
MJ-400	MJR-400	MJP-100	Regular
MJ-300	MJR-300	MJP-100	Short
MJ-200B	MJ-200BR	MJP-200B	Bariatric

Front & Back Panels (see *Phenotype-driven sizing system below*)

MIAMI J FRONT	MIAMI J BACK	SIZE
MJ-200SFRT	MJ-400BK	Super Short/Kyphotic*
MJ-200LFRT	MJ-200LBK	Stout
MJ-250FRT	MJ-250BK	XS
MJ-500FRT	MJ-500BK	Tall
MJ-400FRT	MJ-400BK	Regular
MJ-300FRT	MJ-300BK	Short

Miami J Front and Back Panels may be interchanged to accommodate patient anatomy, e.g., a Small Front may be used with a Large Back.

Choose collar size based on patient neck height, not patient body size.

* Super Short/Kyphotic collars are packaged with Medium Back Panels.

PHENOTYPE SIZING CHART

Specialty sizes: 30% of the population

Specialty sizes: 30% of the population				Standard sizes: 60% of the population	
<p>Super Short/ Kyphotic 10% (Sp Shrt)</p> <p>Does your patient have a kyphotic (chin-on-chest) neck?</p> <ul style="list-style-type: none"> • Kyphotic • Chin-on-chest • Geriatric • Osteoporitic and/or ankylosing spondylitic 	<p>Stout 15% (Stout)</p> <p>Does your patient have a very large neck circumference?</p> <ul style="list-style-type: none"> • Very large neck circumference • Obese • "No neck" • Massive shoulders 	<p>XS 5% (XS)</p> <p>Does your patient have a very short, thin neck?</p> <ul style="list-style-type: none"> • Very short, thin neck • Principally female • More prevalent in the Asian population 	<p>Tall 10% (Tall)</p> <p>Does your patient have a long, tall neck?</p> <ul style="list-style-type: none"> • Long, tall neck • "Swan neck" • Young women • Adolescents 	<p>Regular 30% (Reg)</p> <p>Is your patient female?</p> <ul style="list-style-type: none"> • Female • Standard size for mature women • Thin, mature male 	<p>Short 30% (Shrt)</p> <p>All other adults?</p> <ul style="list-style-type: none"> • Standard size for mature men • Short-necked women

Phenotype-driven sizing system makes size selection simple while drastically reducing margin of error in fitting a patient. Each collar has a bioengineered front with a specific back designed to work together for superior immobilization.
