Benefits:

- Universal Sizing
- Ambidextrous Design
- Quick Lace Closure System
- Adjustable ROM Hinge
- Nylon Glove for Compression and Warmth
- Relief and Support with Style
Fits comfortable under or over clothes

UNIVERSAL SIZING

The Trend Pro Wrist is an ideal product for patients suffering from many wrist and hand ailments including carpal tunnel syndrome. Having the ability to set flexion/extension or put the wrist in a neutral position is a game changer in wrist bracing. Traditional wrist braces “cock-up” the wrist which creates pressure on the median nerve and causes more pain for patients with carpal tunnel. The Trend Pro Wrist features universal sizing with an ambidextrous design, quick lace closure system, a malleable frame to allow the brace to conform to any patient, an easy to use adjustable ROM hinge to allow for desired flexion and extension, and a nylon glove to add compression and warmth to wrist/hand to promote blood flow.
